PHACO HANDPIECE REPAIRS

**WHY KEEP REPLACING WHEN
OUR REPAIRS CAN SAVE YOU
£ THOUSANDS!**

40-70% SAVINGS

40-70% savings on manufacturers' prices

- **Quality repairs with repair warranty**
- **All major makes repaired**
- **Minor repairs to complete rebuild**

Often, manufacturers will not repair these instruments, only offering a service/exchange, or new replacement instead at even higher prices

All of our repairs are covered by a 6 month repair warranty

OUR SERVICES:

Phaco Handpiece Repairs

Our partner repairs phaco handpieces, harmonic scalpels and camera heads for us. Their lead engineer was the lead design engineer for Alcon for 12 years and designed the Alcon 20k handpiece and the Allergan Sovereign handpiece

He trained all of Alcon's technicians in the USA and now trains all the technicians for his current company

All the phaco handpieces that we send to them for repair are fully rebuilt. They service most makes and models of phaco handpieces and camera heads, as well as all the Ethicon models of harmonic scalpels
